Special Mention by Autodesk

Autodesk Outsight Network

The **Autodesk Technology Centers** will award an opportunity to join the **Autodesk Technology Centers Outsight Network** - a global community of industry leaders, entrepreneurs, and researchers building future-focused technology in design, AEC, manufacturing, and more that is destined to change our world.

A winner will be selected for each of the following categories: **Design**, **Manufacturing**, and **Construction**.

The **Autodesk Technology Centers** are where the future of making takes shape. The **Outsight Network** is a diverse and dynamic community of resident teams from industry, academic, and entrepreneurial sectors from around the world coming together to create a shared vision of the future of making.

Participating in the **Outsight Network** offers:

- Connection to a global and diverse network of pioneering innovators
- Robust program of online events to gain knowledge and industry insight
- Access to Autodesk design tools and subject matter expertise
- Opportunity to test solutions and demonstrate your work to a global audience
